Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to identify the classes, and the prices of the semiannual or annual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of $5 per hour.

For each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at $50 a year, for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20540.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are listed separately at the end of each related part. Some parts also contain registrations made under symbols other than those listed for the particular part, if the subject matter or type of material is similar to that generally included in the part.

The first letter of the symbol is that of the class under which registration is made. Second and third letters, if any, that follow the initial letter are added by the Copyright Office for the purpose of statistical analysis. Their significance is as follows:

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

F Published foreign works. In the case of books and periodicals, it designates works manufactured outside the United States (except those registered for ad interim copyright). In all other classes to which it applies, it designates works first published outside the United States, the authors of which are neither citizens nor domiciliaries of the United States. (AF, EF)

I Books and periodicals registered for ad interim copyright. (AI, BI)

O Published works of foreign origin registered under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). (BIO, GFO)

P Domestic published works in classes for which registration is possible for either published or unpublished works. (EP, JP)

U Unpublished works in classes for which registration is possible for either published or unpublished works. (DU, EU)

Area List	39
Publishers Directory	95

Introduction

PART 6 lists domestic and foreign maps, atlases, and other cartographic works registered in class F, together with similar selected works currently registered in class A. Works for which the copyright has been renewed are listed separately in the Renewal Registration section.

Arrangement is alphabetical under the name of the author (i.e., the person or organization principally responsible for the content of the work). Each work is described in a main entry which includes information pertinent to the copyright claim. References are made to the main entries from the names of contributing authors (e.g., joint authors, editors), publishers, claimants, and from variant forms of names.

The Area List for currently registered works is arranged alphabetically by area. The Publishers Directory lists the publishers of current registrations together with the latest address for each as given in the application or the work.

For works currently registered each main entry includes, in addition to the name under which is filed, the following items of information if available and applicable:

1) Title, amplified if necessary by a brief identification of the area covered by the work.
2) Names of contributing authors.
3) Edition statement.
4) Place of publication for all foreign works; and for domestic atlases and plat books if given in the imprint on the work, unless the work is entered under the publisher as author.
5) Name of the first-named publisher; when the publisher is also the author, the name is omitted.
6) Physical description, including number of pages or volumes if applicable.
7) Series statement.
8) Special descriptive data which includes scale, projection, and statement of insets and other supplementary maps.
9) Names of authors given in the application which do not appear elsewhere in the entry.
10) Name of the employer in the case of a work made for hire, if so named in the application.
11) Application title if it varies substantially in wording from the title as it is given on the work.
12) Information contained in the application which relates to the registration of an earlier version of the work.
13) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

14) Copyright symbol ©.
15) A statement of limitation of claim if the application or notice on the work explicitly limits the claim.
16) Name of the copyright claimant.
17) Date of publication as given in the application.
18) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 8Jan71 (in notice: 1970); F52000.

For renewal registrations, the main entry includes, in addition to the name under which it is filed, the following items of information if available and applicable:

1) Title, including area.
2) Names of contributors to the work.
3) Edition statement.
4) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation NM, if available in the renewal application.
5) Copyright symbol ©.
6) Date of original copyright.
7) Original registration number.
8) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe & Co. (PWH)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
9) Date of receipt of the renewal application or fee, whichever is later.
10) Renewal registration number.

Registrations January–June 1971

Class F—Domestic published maps	944
Foreign published maps	5
Maps and atlases registered in class A	126
Total	1,075
Renewals	31

These figures represent the number of registrations for maps for January–June 1971, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries.* Registration figures for other classes of material may be found in the respective parts.

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

AREA LIST

A list of the current registrations in this issue arranged by area, designed to meet the needs of those who are searching for a map of a specific area.

The area headings consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given below in the list of "Geographical Divisions of the United States" is used. If the area shown on the map does not coincide with any of these divisions, one of the more generalized headings is used, e.g., United States, Northern. Names of rivers, lakes, and other geographical features are also included.

GEOGRAPHICAL DIVISIONS OF
THE UNITED STATES

ATLANTIC SEABOARD
- Connecticut
- Delaware
- Florida
- Georgia
- Maine
- Maryland
- Massachusetts
- New Hampshire
- New Jersey
- New York
- North Carolina

L.C. card 6—35347

This number identifies the Library of Congress printed card for the complete series of the *Catalog of Copyright Entries*.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Price of this part is given on page vi.

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided into parts corresponding to the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to identify the classes, and the prices of the semiannual or annual issues.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Information as to changes of copyright ownership is not included in the *Catalog*, but a search of the Copyright Office Assignments and Related Documents Indexes may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of $5 per hour.

For each registration listed, except for renewals, there has been deposited a copy or copies of the work in accordance with the provisions contained in sections 12, 13, 14, or 215 of Title 17 of the *United States Code*.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog* at $50 a year, for periods of one, two, or three years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Superintendent of Documents.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20540.

Organization of Parts

Each part listed in the following table records all current registrations in the class or classes indicated by the alphabetical symbols. Renewal registrations are listed separately at the end of each related part. Some parts also contain registrations made under symbols other than those listed for the particular part, if the subject matter or type of material is similar to that generally included in the part.

The first letter of the symbol is that of the class under which registration is made. Second and third letters, if any, that follow the initial letter are added by the Copyright Office for the purpose of statistical analysis. Their significance is as follows:

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

F Published foreign works. In the case of books and periodicals, it designates works manufactured outside the United States (except those registered for ad interim copyright). In all other classes to which it applies, it designates works first published outside the United States, the authors of which are neither citizens nor domiciliaries of the United States. (AF, EF)

I Books and periodicals registered for ad interim copyright. (AI, BI)

O Published works of foreign origin registered under the waiver-of-fee provision (section 215 of Title 17 of the *United States Code*). (BIO, GFO)

P Domestic published works in classes for which registration is possible for either published or unpublished works. (EP, JP)

U Unpublished works in classes for which registration is possible for either published or unpublished works. (DU, EU)

Renewal Registrations	125
Area List	127
Publishers Directory	171

Introduction

PART 6 lists domestic and foreign maps, atlases, and other cartographic works registered in class F, together with similar selected works currently registered in class A. Works for which the copyright has been renewed are listed separately in the Renewal Registrations section.

Arrangement is alphabetical under the name of the author (i.e., the person or organization principally responsible for the content of the work). Each work is described in a main entry which includes information pertinent to the copyright claim. References are made to the main entries from the names of contributing authors (e.g., joint authors, editors), publishers, claimants, and from variant forms of names.

The Area List for currently registered works is arranged alphabetically by area. The Publishers Directory lists the publishers of current registrations together with the latest address for each as given in the application or the work.

For works currently registered, each main entry includes, in addition to the name under which it is filed, the following items of information if available and applicable:

1) Title, amplified if necessary by a brief identification of the area covered by the work.
2) Names of contributing authors.
3) Edition statement.
4) Place of publication for all foreign works; and for domestic atlases and plat books if given in the imprint on the work, unless the work is entered under the publisher as author.
5) Name of the first-named publisher; when the publisher is also the author, the name is omitted.
6) Physical description, including number of pages or volumes if applicable.
7) Series statement.
8) Special descriptive data which includes scale, projection, and statements of insets and other supplementary maps.
9) Names of authors given in the application which do not appear elsewhere in the entry.

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

10) Name of the employer in the case of a work made for hire, if so named in the application.
11) Application title if it varies substantially in wording from the title as it is given on the work.
12) Information contained in the application which relates to the registration of an earlier version of the work.
13) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.
14) Copyright symbol ©.
15) A statement of limitation of claim if the application or notice on the work explicitly limits the claim.
16) Name of the copyright claimant.
17) Date of publication as given in the application.
18) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given in the work; e.g., © Richard Roe & Co.; 8Jul71 (in notice: 1970); F52800.

For renewal registrations, the main entry includes, in addition to the name under which it is filed, the following items of information if available and applicable:

1) Title, including area.
2) Names of contributors to the work.
3) Edition statement.
4) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation NM, if available in the renewal application.
5) Copyright symbol ©.
6) Date of original copyright.
7) Original registration number.
8) Name of the renewal claimant followed by a statement in parentheses, usually abbreviated, giving the basis of the renewal claim as supplied by the applicant; e.g., "John Doe & Co. (PWH)" indicates that renewal of copyright is claimed by John Doe & Co. as proprietor of copyright in a work made for hire.
9) Date of receipt of the renewal application or fee, whichever is later.
10) Renewal registration number.

Registrations July–December 1971

Class F—Domestic published maps . . .	738
Foreign published maps . . .	4
Maps and atlases registered in class A	81
Total	823
Renewals	36

These figures represent the number of registrations for maps for July–December 1971, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

These entries alone may not reflect the complete Copyright Office record pertaining to a particular work. Contact the U.S. Copyright Office for information about any additional records that may exist.

AREA LIST

A list of the current registrations in this issue arranged by area, designed to meet the needs of those who are searching for a map of a specific area.

The area headings consist of the names of the largest geographical or political units enclosed within the borders of the several maps. When the borders of a map do not coincide in any way with a single geographical or political unit, the name of the most significant unit contained therein is used in the heading. When a map contains three or more states comprising part of one of the geographical divisions of the United States, one of the headings which is given below in the list of "Geographical Divisions of the United States" is used. If the area shown on the map does not coincide with any of these divisions, one of the more generalized headings is used, e.g., United States, Northern. Names of rivers, lakes, and other geographical features are also included.

GEOGRAPHICAL DIVISIONS OF

THE UNITED STATES

ATLANTIC SEABOARD

- Connecticut
- Delaware
- Florida
- Georgia
- Maine
- Maryland
- Massachusetts
- New Hampshire
